

The Holy Kumaras on Venusian Alchemy, Architecture, Art & Music

Meru University Course #1210

Syllabus

The Holy Kumaras share an intimate vision of life on Venus in the higher realms of light and of how their solar civilization incorporates divine alchemy and architecture into their society. They reveal wisdom teachings that are relevant for us today as we recreate a garden paradise on Earth. Venusian minstrels and artisans inspire us with an understanding of the science of higher music and holy art forms which permeate the Venusian culture, making it a true planet of divine love.

There are no required course readings or prerequisites. Simply be present to experience a darshan of impelling love with the spiritual leaders of our sister planet, Venus. This course originally took place in Sweden. Some portions of the class are translated into and from Swedish.

During the second class there is a segment of about twenty-five minutes of silence that occurred when students were working on an assignment to draw and color their ideal garden home based on Venusian principles.

Class 1

Venusian Alchemy and Architecture

- Learn about the Golden-Crystal Age Civilization of Venus
- The true and sacred purpose of art and architecture
- The effects of divine art and architecture on civilizations
- The integral role of nature in creativity
- Implement the understandings of Venusian art and architecture in your life and creativity
- Questions and answers

Class 2

Venusian Art and Music

- Draw your own perfect Crystal-Age garden and home with your non-dominant hand, using colored pencils and paper
- Listen to participants sharing their co-creative efforts
- Get to know your inner child; be bold, creative and playful
- The culture of love is embedded in every aspect of Venusian art, architecture and music
- Sound is sacred and solar music brings in the light and sound rays of the angelic choirs
- Enjoy a musical experience in praise of the master El Morya
