

The Masters Speak Series

Meru University Course #1402

Syllabus

Are you ready to deepen your spiritual understanding and experience with the ascended masters? Do you desire more knowledge about your aura? About acquiring more abundance? About experiencing greater depths of compassion and brotherhood? These four unique, life-altering topics will stir your heart and challenge you to go deeper and higher in your quest for self-mastery.

Four magnificent ascended masters will inspire you with their perspectives. El Morya will elaborate on the human aura. Join Mother Mary as she underscores and expands on the keys and steps to miraculous abundance. Through Afra's heart you will understand the true oneness of all mankind and all sentient life.
