Milarepa will create a sacred space of divine stillness within and around us for us to access a deeper awareness of the Great Silence. Through teachings on Buddhist surrender, he will encourage us to make greater progress toward our joyful enlightenment so that we may serve others in a more surrendered consciousness of non-reactivity and listening grace. All will feel the power of Milarepa's tangible presence as he helps meld us with our Buddha Nature as never before!

The 3-hour class will include the giving of Buddhist mantras and songs at the onset to help establish the flowfield. There will be a time for darshan with questions and answers and sharing by the students.
