This final Meru University course of 2018 will afford us an opportunity to bask in the light of Vajrasattva's indomitable spirit within which he manifests the adamant-diamond nature of victory. Using his sacred thunderbolt vajra, he will clear us and the Earth with the lightning-love of Buddhist compassion and teach us how to free sentient beings to rise into their own Buddha Nature. Fiery fiats may be expressed throughout this class to free us from illusion and to goad us to new heights of divine awareness!
